

Let a little  
sunshine  
into your life with  
ezylite

SUITABLE FOR WALK-IN-ROBES || ENSUITES || SMALL BATHROOMS || HALLWAYS

**EZYLITE**

DIY TUBULAR SKYLIGHT KIT

## It's easy to install your own DIY ray of sunshine

Introducing the *EzyLite 300mm Diameter Skylight Kit* – an ideal and simple solution for *any* DIY handyman to add a cost effective lighting solution to your home.

When you invest in an *ACOL* skylight system from our wide range of sizes and models, *you will create a natural, brighter, cleaner, happier lifestyle in your home.*

There's no reason to suffer dark and gloomy corners or rooms around your house – *ACOL have mastered the art of providing the right natural light to suit your needs* and with over 25 years of industry experience, our unique designs mean minimal heat loss/gain.

*EzyLite 300mm* kit includes:

- Moulded acrylic dome with aluminium roof tray
- Mylar light shaft – 2 metre length
- Moulded ceiling ring adds to a smart finish
- Prismatic diffuser panel for better light spread
- Screw kit
- Installation instructions

*EzyLite 300mm high performance reflective flexi tube*

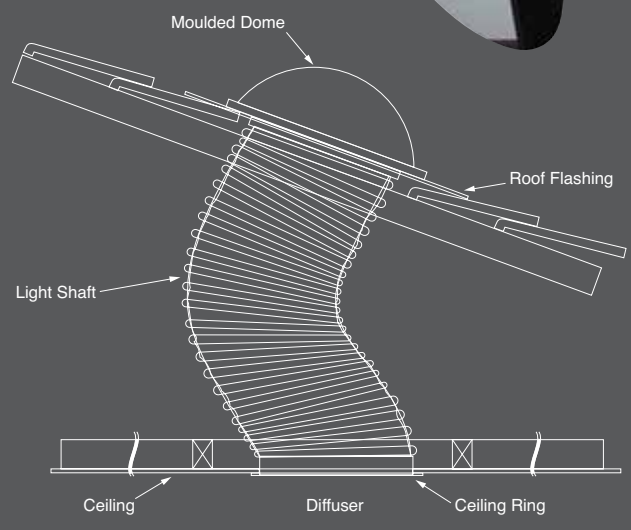

Manufactured specifically for high light transmission, the mylar/polyester bonded light shaft will give years of trouble free service and transfer more light to where you need it. Super flexible to avoid obstructions (such as roof bearers) inside your ceilings. And *EzyLite 300mm* flexi tube simply adjusts to your specific roof pitch and ceiling height.

*It's easy to install your own EzyLite 300mm ray of sunshine*  
*EzyLite 300mm* aluminium roof tray *suits all roof types.*

Made and designed in Australia to ensure easy installation to tiled, corrugated profile or metal deck roofs. Simply shape to your roof profile and then silicone to seal under edges – It's that easy!

*EzyLite* means no structural alterations to the frame of your home are required.

Wardrobe courtesy of SPACEWORKS \* 10 Year Product Warranty. Conditions apply.
